CERT-005	ISO 22301:2019	Not held	-	-	-

Notes

- ISO/IEC 20000-1:2018 is not held by Nimbus. Gap analysis started in July 2026; a certification target of Q2 2027 is a planning target only.
- ISO 22301:2019 is not held by Nimbus. Business continuity is governed by the internal BC/DR policy (KB-POL-003).
- CMMI: Maturity Level 3 (Services). Proposals must not state any higher maturity level.
- ISO/IEC 27001:2022 certificate SYN-ISMS-2023-0412 expires on 10 November 2026. Recertification audit is scheduled for 16 to 18 November 2026. Bid teams must check the validity date required by each tender against the expiry date and must not state that the certificate is valid beyond 10 November 2026 until a renewed certificate is issued.

Individual certifications held by staff

Personal certifications (PMP, CISSP, CCNP and others) are recorded in the HR system and in each CV. Expired personal certifications are flagged in the personnel facts table and must not be presented as current.
